Re: Initial Trip Report (Fax 2)

Bob-san

Thank you for your trip report and numerous observations. You have provided much activity in week one. Thank you for your effort.

I have to be out of the office on Monday so I can not take your phone call. Please contact me on Tuesday at your convenience as I should be at my desk.

In the mean time please spend some time thinking for me on Monday regarding "what is the actual problem"? Please frame the problem with some specific facts and data about the current start up situation for production and maintenance so that I can assess the extent of the problem.

I look forward to our discussion on Tuesday.

Regards,

Tom Harada
