Re: Actual Problem Data (Fax 3)

Here is the only data that I can collect regarding the problem. The systems for reporting are still evolving and it is not easy to get the facts as you requested. But I was able to collect these from the daily production logs on the shop floor. I confirmed the content with the Production and Maintenance Group Leaders. FYI - in July the plan is to next make 500 units per day.

**Production Volume**

**Downtime Minutes Per Shift**
